Guidelines and Evaluation Criteria for Poster Competition

Poster content must be in English.

Poster size: Maximum dimensions are 4 feet high x 5 feet long. Posters that do not follow the size requirements will not fit poster boards.

Detailed instructions for poster displays, poster number, and location will be provided at the registration desk. Be sure to display your poster in the allocated poster board.

Please only use the materials provided for poster set-up.

Set-up your poster after registration during the morning.

The presenting author is responsible for displaying the poster at the poster session and removing it at the end of the poster session.

Posters will be judged by a diverse panel of experts based on the following criteria:

Research Content

- Significant impact and relevance to cancer field
- Clear stated purpose and introduction
- Well established and clear hypothesis
- Clear stated and well defined specific aims
- Detailed and Clear methodology
- Clear presentation of the results (Figures, Tables and Graphs)
- Conclusions supported by the data

Poster Organization

- Neat, organized, and concise
- Well-written, proper grammar
- Quality and relevance of figures towards answering the questions made

Communication Skills

- Presenter clearly communicates the research to specialist and non-specialist audience
- Quality and clarity of the presentation and persuasiveness of data

Awards

- Top three undergraduate and graduate poster presenters will be awarded with cash prizes.
